

UNIVERSITY OF ECONOMICS VARNA

TUITION FEES:

University of Economics – Varna is the first higher school of economics in Bulgaria. As far back as 1911 the Chamber of Commerce and Industry in Varna was considering the possibility for creating a higher school of commerce. On 14 May 1920 at the XXV session of the Chamber by a majority there is passed the resolution for its opening.

The first curricula and syllabuses are made up on the analogous normative base of the Berlin higher school of commerce, which has the reputation of being the most modern of its time in the whole of Europe.

Faithful to its history and bound by traditions handed down by the founders of the University of Economics – Varna, today the academic community achieves high standards in education, following the European policy for competitiveness of staff and justified expectations for successful realization.

In its 94-year-long history University of Economics – Varna has trained more than 110,000 economists. International students of almost 60 different nationalities have completed their higher education with us.

The main goal of the research policy at University of Economics – Varna is to ensure the unfolding and more effective utilization of the available potential of academic staff for the achievement of quality theoretical as well as scientific and applied research.

The doctoral studies at the University of Economics – Varna are a driving force and a tool for the development of the economy based on knowledge and innovation.

The doctorate is the third and highest level of higher education, through which there is acquired the educational and scientific degree of doctor.

University of Economics – Varna provides opportunities for training in the following accredited doctoral programmes:

- Social Governance
- Political Economy (general economic theory)
- Finance

WITH ACADEMIC TRADITIONS INTO THE FUTURE!

HOW TO APPLY?

Every year University of Economics – Varna announces competitions for the admission of PhD students – by public contract and against payment. The competitive examinations include an examination in the field of study and in a foreign language, chosen by the candidate (English, German, French or Russian).

The admission in the self-preparation form of study is done without competition, throughout the entire academic year. The applicant is to present in the respective primary unit a project of the dissertation developed in its main part, and a bibliography.
