What is the University of Economics - Varna like?

The University of Economics – Varna (UE–Varna) is one of the oldest institutions of higher education in economics on the Balkan Peninsula with a century-long history. The University was established in 1920 by the Chamber of Commerce and Industry in Varna and has adhered to its mission ever since – to develop the science of economics, to train specialists needed for the prosperity of business in the region and the country as a whole.

Since then more than 123,000 Bulgarian and foreign students have graduated the University and have received higher education diplomas in economics. Today there are over 7,000 Bulgarian and international students at the University. Their training is provided by some 290 staff – doctorate degree holders, professors, associate professors and assistant professors.

The University consists of 4 faculties, one college and 19 departments which offer more than 25 accredited programmes in four professional areas: Economics, Administration and Management, Tourism, IT and Computer Sciences. There are over 30 master's degree majors in three forms of study: full-time, part-time and distance learning. The College of Tourism offers training for a professional bachelor's degree in tourism in three majors.

UE–Varna follows its mission to be a leading educational and scientific institution with an established identity in the European education area, oriented towards providing high quality education in line with the concept of lifelong learning, conducting significant research and offering competitive solutions with sustainable economic and social impact.

International Cooperation

The International Relations Office is responsible for the establishment and coordination of international contacts with other institutions of higher education. It assists foreign students studying at UE–Varna, and incoming and outgoing mobility students. The conclusion and the implementation of international agreements, the collection and dissemination of information about international programmes, opportunities to study abroad and receive grants, coordination of trainings, vocational trainings and practical mobility (recruitment of applicants, preparation of documents) are some of the main functions of the office.

Studying at the University of Economics - Varna

1. How to apply to the University of Economics - Varna

Mobility students who would like to study at UE–Varna in the winter semester or for a full academic year should submit their application forms through the electronic system of the University after a period for nomination between 1st and 15th of June. Those who would like to study in the summer semester should submit their application forms after the nomination deadline – 15th and 30th of November.

The complete set of documents is:

1. Application Form
2. Learning Agreement
3. Housing Application
4. 4 passport-size photos (3.5 x 4.5 cm).

Step-by-step procedure

Step 1: Check for agreements between your home University and the UE–Varna by contacting your International Relations Office. The person in charge will inform you about the procedures for you to be selected as an Erasmus+ mobility student.

Step 2: After passing the selection procedures, your home University must nominate you in our online application system.

Applications should be sent by 15th June for winter semester and full academic year, and by 30th November for summer semester.

Step 3: You will receive an e-mail with login information for access to our electronic system. Fill it in completely and be ready to send the original documents with ID photos via post.

Step 4: All documents must be sent to exchange_students@ue-varna.bg and via post to UE–Varna International Relations Office.

2. What to do before arrival?

Get a visa

Visa regulations for tourists are liberal: Bulgaria has agreements with numerous countries for allowing visitors to stay in the country without a visa for up to 90 days. Exchange students from EU countries do not need a visa. Exchange students from non-EU countries must obtain visa D in order to study at UE–Varna.

Get insurance

Foreign students from EU and EEA member states should have the forms E128, E111 or the EHIC card. The document type depends on the authorized insurance agency at the country of origin.

Students from non-EU member states must obtain health insurance valid on the territory of the Republic of Bulgaria from the authority responsible for health affairs in their home country.

This certificate should contain clear description of the scope of their rights. Students have to obtain health insurance certificates prior to their arrival in Bulgaria. Health insurance is necessary for visa D application.

Also...

We advise you to bring your ISIC card. The card is recognized in Bulgaria and can be helpful when purchasing international train tickets, plane tickets or visiting museums. With your ISIC card you can also get special discounts at different shops and clubs.

Motor vehicle drivers should possess a valid local or international driving licence. You need a “green card” insurance for your own vehicle.

3. How to get started at the University of Economics - Varna?

Introduction week

During your first week, you will get an in-depth review of the information in this guide and much more. You will learn about your studies, accommodation, facilities, tutoring, trips arranged for international students, etc. Participation in the whole Orientation week is **obligatory**.

Buddy programme

The Buddy Programme is a fun way to get to know new people in a new country fast and easily, to learn more about the local culture and discover even the small and probably not so obvious at first sight details about it. The final goal of the programme is fast cultural and social integration of international students through lots of fun.

Selecting courses

You can find the courses offered in English for the incoming Erasmus+ students in this booklet. Having chosen your courses, you are given the chance to re-select some courses during the first week of studies.

Tutoring
