Abstract. The present sample contains information on preparation of the digests for the 14-th International Conference on Marine Sciences and Technologies BLACK SEA 2018, which will be held from 10 to 12 of October 2018 in Varna, Bulgaria. The abstract should contain the most important information about the paper. Please avoid citations and symbols other than normal text.

Keywords: Up to five, in alphabetical order.

INTRODUCTION

These instructions are written using Microsoft Word 2003. You can also use other versions of Microsoft Word like 97, 2000, XP or 2010. You may type over sections of the present file, cut and paste into it (Edit | Paste Special | Unformatted Text), and/or use mark-up styles.

The length of the paper should be up to 6 pages. The page setup should be in such a way that on A4 paper the margins are: top margin 2.5 cm, bottom margin 2 cm, left margin 2.5 cm and right margin 2.5 cm. Do not number the pages. The proceedings will be printed in A4 format.

PAPER ATTRIBUTES

Fonts and styles

It is recommended to use Times New Roman font or equivalent. The title, authors, affiliation, headings, table captions and figure captions are centered. Subheadings are left aligned. Left indent of the subheadings and the first line indent is 1.25 cm. Abstract and keywords have 2 cm left and right indent. References should be numbered using "Numbering", to have 0.75 cm hanging first line and the first tab set at 0.75 cm.

The font sizes and appearance for the styles to be used in the full paper are shown in Table 1.

Table 1. Font size and appearance for the different styles

Style	Font size	Appearance	Space before	Space after
TITLE	14	Bold , UPPERCASE	0 pt	18 pt
Authors	12	Normal	0 pt	12pt
Affiliation	10	Normal	0 pt	6 pt
Keywords	9	Bold /normal	12 pt	6 pt
Abstract	9	Bold /normal	0 pt	6 pt
HEADING	10	Bold , UPPERCASE	12 pt	0 pt
Subheadings	10	Bold	6 pt	0 pt
OJPE Default	10	Normal	3 pt	0 pt
FigureCaption	9	Bold /normal	6 pt	12 pt
TableCaption	9	Bold /normal	12 pt	0 pt
References	8	Normal	3 pt	0 pt

Figures, tables and equations

Tables can be created using "Table | Insert table" command. It is not recommended to split the table over two pages. Table caption should be over the table, as in Table 1.

Figures should be centred and figure captions placed below the figures, as in Fig. 1. In case of very small figures, where text wrapping is necessary, figures can be placed either left or right. It is recommended that the box "Float over text" for the figure position be not checked.

Equations should be centered and numbered flush left, as in Eqn. 1. They can be part of the sentence, like in the electromagnetic field equation written in the form

$$\nabla \times (\nabla \times \vec{A}) - \vec{J}_e + \sigma \frac{\partial \vec{A}}{\partial t} - \sigma \vec{\nabla} \times \vec{B} - \nabla \times (\mu_0 \vec{M}) = 0.$$

All symbols used in the equations should be defined either before or right after the equation.

Figure 1. This is the figure caption for centred figure.

References

All references should be numbered in square brackets both in the list of references and when citing them [1]. For books [2], use italic for the book title. When the book or paper is not in English, give the English translation of the title and specify the language in parentheses at the end.

CONCLUSIONS

Please pay attention to the language. If your native language is not English, please get a native English-speaking colleague to proofread your paper. Employing UK spell checker is recommended.

The Executive Committee has the privilege to invite you to attend the Fourteenth International Conference on Marine Sciences and Technologies Black Sea 2018.

Black Sea 2018 is a follow-up of the traditional events regularly held in Varna on the problems of marine science and technologies.

Black Sea 2018 is expected to provide opportunity for exchange of knowledge and ideas between researchers from different scientific areas and from different countries in Europe, as well as boost the dialogue between science, industry and shipping.

We are looking forward to meeting you in Varna!

Main Topics of the Conference:

- (1) *Shipbuilding and Ship Repair*
- (2) *Ship Hydrodynamics*
- (3) *Electrical and Thermal Engineering*
- (4) *Machinery and Propulsion Systems*
- (5) *Maritime Transportation and Port Operations*
- (6) *Oceanology and marine ecology*
- (7) *Ocean Engineering*
- (8) *Maritime Safety and Marine Environment Protection*
- (9) *Fisheries and Aquacultures.*
